

Our CHARTER for CHANGE

THIS BUSINESS IS PREVENTING PLASTIC POLLUTION

Westcountry

Rivers Trust

WOULD LIKE TO THANK...

For their commitment to reduce Single Use Plastic.

DATE:

WE ARE WORKING TOWARDS REDUCING OUR OWN USE OF PLASTIC BY:

As part of the fight against plastic pollution, and as a partner in the Plastic Free Tamar campaign, we confirm our commitment to actions that will free the Tamar Catchment from the impact of avoidable and unnecessary plastic.

1

Recycling and reusing more of our plastic rather than letting it become waste and employing alternatives if necessary

2

Working with others to raise awareness and tackle the plastic already blighting our environment.

3

Encouraging positive behaviour change and sharing best practice and learning

4

Eliminate three items of single-use plastic from our everyday use.

5

Making sure plastic does not enter our environment as litter and so reducing the impact on habitats, ocean life and climate change
