

Marsh Farm: Access Track Specification Note *DRAFT*

Project: Strategic Exe Weirs_11 Bolham

The figure below has been created to ensure the correct permanent access track specifications and requirements are met for both the landowners at marsh farm and South West Water as part of an ongoing maintenance agreement at Bolham Weir Fish pass.

The track is likely to be constructed of a low maintenance and natural material, such as a cohesive/free draining material, it must be easy to install and low maintenance.

Map Key.

Culverts need upgrading – spec = 2 No. —

Track – material to be suitable for construction machinery/material access and low maintenance.

Turning/set-down area ■

Fence – New sheep-netted + 2-strand Barb. —

And existing fence (not on pic) - - - -

Gates – New locations to match existing gates = 4 No. —

Existing Gate – not being replaced. —
